ICETECH
DRY ICE BLAST EQUIPMENT

US | www.icetechworld.com | 997041 01/02/10

TECHNICAL DATA

KG20

Dim. inch

Length: 18.8
Width: 20.4
Height:
incl handle
40.5
Height:
w/ handle folded down
33.4

Weight

lbs: 127.8

Dry Ice Capacity

lbs: 44

Dry Ice Consumption

lbs/h: 36 - 122
infinitely adjustable

Supply Pressure

psi: min. 72 - max. 145

Blasting Pressure

psi: min. 29 - max. 145

**Prepared
for Light Gun**

Air Consumption

cfm: 35 - 175
depending on nozzle
combination

**Compressed
Air Connection**

3/4" claw coupling
The compressed air must be
kept clean and free of oil,
foreign bodies and water

Power Consumption

110/230 V
AC 50-60 Hz
24V handy interchangeable
battery, and battery charger

Single Hose System

Noise

Noise level 60-120 dB(A)
depending on blasting pres-
sure, nozzle combination and
material surface

**User-Friendly Control
display w/ error-log
indication**

KG6

Dim. inch

Length: 18.8
Width: 20.4
Height:
incl handle
36.6
Height:
w/ handle folded down
25.6

Weight

lbs: 110

Dry Ice Capacity

lbs: 13

Dry Ice Consumption

lbs/h: 33 - 88
infinitely adjustable

Supply Pressure

psi: min. 72 - max. 145

Blasting Pressure

psi: min. 29 - max. 145

**Not Prepared
for Light Gun**

Air Consumption

cfm: 35 - 175
depending on nozzle
combination

**Compressed
Air Connection**

3/4" claw coupling
The compressed air must be
kept clean and free of oil,
foreign bodies and water

Power Consumption

110/230 V
AC 50-60 Hz
24V handy interchangeable
battery, and battery charger

Single Hose System

Noise

Noise level 60-120 dB(A)
depending on blasting pres-
sure, nozzle combination and
material surface

**User-Friendly Control
display**

ICEBLAST BATTERY SERIES

Dry Ice Blasting

For more information: www.iceblastworld.com

01 : 02 : 03 : 04 : 05 : 07

09 : 10 : 12 : 13

The battery models are ideal for end users that need the equipment for certain repetitive and easy cleaning tasks which neither require high-pressure levels nor long continuous periods of operation.

The jobs can be carried out satisfactorily using the compressors that are normally available at small factories, workshops, garages, etc. provided that the air is sufficiently dry and clean.

Examples of ideal applications for the IceBlast battery models are:

- :: Degreasing of tools, molds, etc.
- :: Cleaning of switchboards, printed circuits, etc.
- :: Cleaning of car engines (injection valves on cylinder heads, especially on diesel driven motors)
- :: General maintenance at workshops and garages
- :: General maintenance in food industries

ICEBLAST BATTERY SERIES

For Dry Ice Blasting

Dry ice blasting is a revolutionary blasting method that uses dry ice pellets with a diameter of 3 mm (rice-sized) as the blasting media. The pellets consist of solid CO₂ at a temperature of -110°F. The process is very environmentally friendly and provides a fast and effective alternative to traditional methods of cleaning industrial production equipment.

- 01: User-Friendly Control Display**
The control panel includes adjustment, and display of the dry ice consumption as well as of the blasting pressure.
- 02: Blasting Pressure Display**
- 03: Adjustment of Blasting Pressure**
- 04: Emergency Stop**
Cuts the power supply and all machine operations.

- 05: Digital Control Display**
User-friendly control display, for adjusting the pellet consumption and the compressed air pressure with error-log indication (only KG20, for KG6 please see 08:).
- 06: Battery Indicator**
The battery indicator displays the battery level currently, ensuring easy check-up of battery status during operation.
- 07: Safety Instructions**
Safety instructions with symbolic and textual explanations give the operator an instant and comprehensive overview of the safety precautions.

- 08: Pellet Consumption / Air Pressure**
Potentiometer for adjusting pellet consumption. Manometer showing compressed air pressure (only for KG20 and KG6).
- 09: Self-Adjusting Dispensing System**
One of the reasons for the very high efficiency of the machine is the patented self-adjusting dispensing system that requires a minimum of maintenance.

- 10: Handy Interchangeable Battery**
- 11: Light IceGun**
The blasting guns are built up of modules and can be adapted to suit any task.
 - Light
 - Safety switch
 - Two-step trigger
 - Blasting with dry ice AND air
 - Or blasting with AIR ONLY
- 12: Blasting Hose**
The blasting hose is made of a supple fibre-reinforced silicone tube with a protective sleeve. Quick couplings allow swift connection to the machine.
- 13: Pellet Tank**
The pellet tank made of acid-resistant stain-less steel and fully insulated with closed-cell polyethylene foam is suspended in rubber fittings allowing it to vibrate freely.
- 14: Special Nozzles and Handles**
A broad range of accessories can be supplied for the blasting gun, ensuring maximum efficiency. Easy to operate even with gloved hand.
