DRY ICE SAFETY

SAFE HANDLING OF DRY ICE

DO NOT TOUCH

Dry ice is a skin and eye irritant. Avoid contact with skin, mouth, eyes and clothing. Dry ice will cause severe burns.

DO NOT EAT

Dry ice is harmful if eaten or swallowed. If ingested, seek medical help immediately.

COULD CAUSE SUFFOCATION

Dry ice changes to CO₂ gas as it sublimates, causing a lack of oxygen. Only use dry ice in open or well-ventilated areas. Do not store in confined spaces such as vehicles or garages and never store near an area where people sleep as suffocation could occur.

DO NOT PLACE IN AIRTIGHT CONTAINERS

Airtight containers may explode as dry ice converts to CO₂ gas.

INTENTIONAL MISUSE OF DRY ICE MAY BE HARMFUL OR FATAL.
